

**CITY OF FORTUNA
NPDES COMPLIANCE PROJECT
CIP #0171**

RFP ADDENDUM NO. 2

The purpose of this Addendum is to modify the Request for Proposals for the subject project.

This Addendum shall become part of said Request for Proposals.

THE FOLLOWING ITEMS REFER TO THE REQUEST FOR PROPOSALS

By request, the following list of additional resources have been made available on the City's public works webpage for CIP project 0171. Please contact Brendan Byrd if you have any issues accessing the additional materials.

1. **Soil and Groundwater Subsurface Investigation Report:** Report analyzing soil and groundwater characteristics used in the preliminary design of the City's proposed effluent disposal facility.
2. **Revised Flow and Loads Analysis – Fortuna WWTP Upgrade:** Documents and develops design flows and loads used for the WWTP upgrade project.
3. **1996 Fortuna WWTP Expansion Design Drawings:** Design drawings for the City's 1996 WWTP project, including the secondary clarifiers and aeration basins.
4. **Fortuna WWTP 12 Month Electrical Power Usage:** Graph showing 12 months (August 2019-2020) of electrical power consumption and cost for the City's WWTP.

END OF RFP ADDENDUM NO. 2
